

Remember When

*Franki Toteda, Terry Toteda
Veronica Belafi, Brendan Lucas*

Remember when
I held you in my arms
For the first time.
My heart filled with love for you,
Unlike any other kind.
We watched you grow into a man
Who's loving and strong.
Your father's son, your brother's arm,
In whose hearts you do belong.

Oh, Oh...
We'll always miss you.
Oh, Oh...
We won't forget you.
Now that you're gone,
The memories remain.

You've shown us the way,
Found the key to our hearts,
Always knew how to laugh,
When times were hard.
Kept your courage and strength,
You helped us get by,
With your fears and our sorrows
We say goodbye.

Jay we miss you,
But now that you're gone,
Forever and ever, your love will live on.
Until we meet again...

Remember when
We laughed and played
Together all day long.
Remember when
Mom and dad
Came to cheer you on.
You were their star,
Their number one
And you could do no wrong.
Your brother's hero,
Robin's best friend,
A force that will live on.

Oh, Oh...
We'll always miss you.
Oh, Oh...
We won't forget you.
Now that you're gone,
The memories remain.

You've shown us the way,
Found the key to our hearts,
Always knew how to laugh,
When times were hard.
Kept your courage and strength,
You helped us get by,
With your fears and our sorrows
We say goodbye.

Jay we miss you,
But now that you're gone,
Forever and ever, your love will live on.
Until we meet again...

You've shown us the way,
Found the key to our hearts,
Always knew how to laugh,
When times were hard.
Kept your courage and strength,
You helped us get by,
With your fears and our sorrows
We say goodbye.

Jay we miss you,
But now that you're gone,
Forever and ever, your love will live on.
Until we meet again...

Jay we miss you,
But now that you're gone,
Forever and ever, your love will live on.
Until we meet again...

Until we meet again

Lyrics by: Terry Toteda, Veronica Belafi, Brendan Lucas & Franki Toteda

The Band: - Franki Toteda (vocals, rhythm guitar, drums)

- Veronica Belafi (lead vocals)

- Brendan Lucas (lead guitar, bass)
